

Elma MS4201 Calibrator

0...24mA, 0...10V, Active, Passive, Measure

EAN 5703534994054 / EL-NR 6398401904

Elma MS4201 is a small, handheld calibrator, both simulating active and passive on top of measuring current and voltage. The instrument will stepless provide 0...24mA or 0...10V DC and furthermore provides lockable 4/20mA and 2/10V. Elma MS4201 measures 0...25mA and 0...25V DC. All values are displayed on the LCD and sockets are for standard 4mm banana plugs. Elma MS4201 is ideal for
